Profile

Solution-oriented frontend developer with over 3 years of experience in building user-friendly, responsive and visually appealing web applications. Passionate about writing clean, efficient code to optimize performance and compatibility. Strong believer in continuous learning, staying updated with industry trends to enhance skills and deliver cutting-edge solutions. Thrive in collaborative environments, working closely with cross-functional teams to create seamless user experiences that align with business goals.

Skills

React.js, Redux, Next.js JavaScript, TypeScript
Firebase, Supabase API Integration
Tailwind, SASS

Professional Experience

FRONTEND DEVELOPER

06/2023 – present | Remote

Freelance / Personal Projects

- Developed responsive UIs from Figma designs, ensuring cross-browser compatibility and WCAG accessibility.
- Built and deployed landing pages, product dashboards, and blogs using **Tailwind CSS**, **TypeScript**, and **Firebase**.
- Integrated APIs (payment gateways, authentication, Google Maps) for production-ready features.
- Refactored legacy code, optimized components, and implemented **lazy loading** and **code-splitting**, improving load times by 45%.
- Maintained client communication, adjusting project scope and gathering feedback.
- Collaborated with backend teams to ensure seamless design-to-code implementation.

WEB DEVELOPER

07/2024 – 12/2024 | Ile-Ife, Nigeria

Self-Employed

- Worked on 3+ landing pages and marketing websites for small businesses using **HTML5**, **CSS3**, **JavaScript**, and **Tailwind**.
- Translated Figma designs into responsive, cross-browser compatible pages.
- Optimized layout rendering and reduced CSS payloads, improving load performance by 30% on mobile.
- Integrated forms with **Formspree** and added smooth animations with **GSAP**.
- Participated in code reviews and learned version control workflows using **Git** and **GitHub**.

FRONTEND ENGINEER (React + Firebase)

11/2023 – 03/2024 | Remote

Independent Project Work ☑

- Designed a modular **KYC onboarding system** that included file uploads, inline validations, and dynamic state-driven form logic.
- Created a **dashboard interface** that supports real-time updates, transaction filtering, and contextual sorting.
- Integrated APIs for **user authentication and real-time updates**, ensuring data consistency and a seamless user experience.

Education

B.Sc Biochemistry and Molecular Biology

Ile-Ife, Nigeria

Obafemi Awolowo University (OAU)
